

THIS IS NOT AN EVENT, THIS IS AN EXPERIENCE !

Dear,

The StepheX Group is an ambitious international family enterprise with over 400 employees. A company that is well established and is leader on several markets for the past few years. We have important commercial and sport successes that develop our notoriety. This philosophy can be found in our events StepheX Masters 2014, Knokke Hippique 2015 and Brussels StepheX Master 2015) that complete our equestrian activities but also invite all participants to something that is more than a horse show. We strive to the best; we want to create something exceptional and different than all other horse shows.

The pride of the StepheX Events lies with the five stars competition, the highest level in showjumping, in which the best horses and riders in the world will be present for spectacular competitions up to 1m60.

It started with one event in 2014, promoted to two competitions in 2015 and now six weekends over 3 events are on the schedule for 2016. In short term StepheX Events aims to create six to eight high-quality international events organized in Europe which all convey the same values and are built around the same concepts.

Beside top sport, the StepheX Events also offer a whole array of performances, lifestyle and entertainment with international artists as well as an opportunity to get together with your clients, suppliers, employees, business contacts, family and friends in the most exclusive way. Hereby you can find some facts:

Brussels StepheX Masters 2015 (3 – 6 September 2015)

€2.2 million budget

7.800 VIP visitors during the four day event

1500m² stand area with 70 traders from all over Europe
